

## *Personal Injury*

We help people who have suffered injuries resulting from motor vehicle accidents (cars, trucks, motorcycles, boats), assault and other causes, such as accidents in retail, municipal or other locations.

Clients are compensated for their damages by the insurance policies of those who are allegedly at fault for the injury.

The personal injury team at Harper Grey is uniquely positioned to help our clients get compensated and move on with their lives. This includes:

- The largest and most experienced group of lawyers handling health law related matters in the province of BC and the Yukon Territory.
- Established relationships with respected expert witnesses to support your case, including health professionals who can assess physical damages.
- A large group of lawyers familiar with how insurance companies strategize.
- Ability to support clients through long, complex negotiation.

We regularly accept referrals from lawyers whose clients may require expertise in specific personal injury matters.

### Representative Experience

We help people recover damages related to:

- soft tissue injuries
- brain damage
- nerve damage
- spinal cord injuries
- multiple injuries
- multiple injured in the same accident
- families or estates of people whose death is a result of an accident

### Contact Person
