### **EXPERTISE**

Health Law

Jan works closely with the lawyers in the firm's Health Law Group providing paralegal support and applying her extensive nursing knowledge and ability to liaise between the medical and legal worlds. She obtained her Bachelor of Science in Nursing from the University of Victoria and her nursing expertise includes critical care, obstetrics, general medicine and paediatrics. Having worked in both large and small hospitals in a variety of settings she brings to her role an understanding of what it is like in the trenches. Jan's main focus is on medically complex Health Law cases, which requires a combination of her triaging and critical analysis skills. She also works on smaller, less complex, but equally important matters.

She is a member of the College of Nurses of British Columbia and the BC Paralegal Association.
