HARPER GREY CELEBRATES E-DISCOVERY'S VITAL AND GROWING ROLE IN THE LEGAL PROCESS

November 22, 2018

The 4th Annual e-Discovery Day will be held on December 4, 2018. We will be joining thousands of legal and IT professionals participating in this key industry event bringing more awareness to the importance of e-Discovery.

E-Discovery Day, begun in 2015, is an industry wide, vendor neutral celebration across the globe in the form of online webinars, keynote panels, and Webcam videos promoting networking and providing an opportunity to learn the latest trends shaping the industry.

Harper Grey's e-Discovery experts, [Lisa Evenson](#) and [Monique Sever](#) have organized a full day of informative webcasts for our lawyers and staff relating to trends in e-Discovery strategy, e-Discovery and information governance and emerging e-Discovery technologies.

"Our clients rely on us to provide efficient and sophisticated e-Discovery services", say Lisa and Monique, "and this is just one way that we keep pace with this rapidly evolving facet of litigation. We sit at the intersection of people, processes and technology and while it may be geeky for others, it is our passion."
