On Thursday, January 31, 2019, Harper Grey's [Prentice Durbin](#) will participate in a panel discussion organized by MNP LLP "When to Pay Off Investors and Grow Your Business". As a tech entrepreneur, knowing when to shift gears can be difficult – especially when you're answering to multiple investors. During this insightful panel discussion, the speakers will help make the most of your sweat equity by discussing how to maximize return on investment, when to focus on paying off investors and when to consider growing your operation.
